<b>1</b>	<b>How to Compile</b>	<b>3</b>
<b>2</b>	<b>How to Run</b>	<b>3</b>
<b>3</b>	<b>How to Test</b>	<b>3</b>

## 1 How to Compile

Just run script `./compile.sh`, it will go in catkin workspace and run a `catkin_make` command.

## 2 How to Run

Just run script `./run.sh`, it will go in `nicp_localization` folder and run in background:

- `rviz`
- `map_server`
- `stage_ros`
- `stageros`
- `normal_viewer`
- `localizer_node`

## 3 How to Test

Set a initial pose using Rviz.
